IN THE CLAIMS

Please amend claim 1 as follows:

Sub  
C1  
B1

1. (Amended) A biologically active polymer product having:  
a water-insoluble polymer substrate; and  
a biologically active compound moiety having a low molecular weight, the portion being covalently bonded to the polymer substrate and exerting selective biological activity,  
wherein the biologically active compound moiety exerts the selective biological activity while being covalently bonded to the polymer substrate.
